- PROFESSIONAL
EXPERIENCE
- NASA Space Apps Challenge | 2024

Project: Seismic Waves Across the Solar System (Mars and Moon)

 - Collaborated in a global innovation sprint to analyze seismic data patterns across planetary bodies using NASA’s open-source datasets.
 - Contributed to research, interpretation, and visualization of cross-planetary seismic activity to support scientific understanding of planetary interiors.
 - Demonstrated strong teamwork, rapid problem-solving, and structured technical execution within the 48-hour challenge framework.
- International Science Symposium | 2025

Project: AgriNext – Farmer-Centric Problem Solving

 - Presented a research-backed solution addressing trust gaps and usability challenges in agri-tech platforms.
 - Delivered a structured pitch supported by JTBD analysis, persona mapping, and validation experiments.
 - Awarded 3rd Prize for clarity, innovation, and practical real-world feasibility.

- EDUCATION
- ITM Skills University, Navi Mumbai | 2025 – 2029

B.Tech in Computer Science & Engineering

 - Achieved a Top 10 ranking among teams in the Smart India Hackathon (Internal Round)
 - Developing practical projects that align with industry standards in Full-Stack Development
 - Actively participating in technical clubs and innovation initiatives
- The ST. Xavier’s School, Malda | 2022 – 2024

Higher Secondary (Science)

 - Consistently excelled in Computer Science
 - Showcased impressive logical reasoning and problem-solving skills
 - Actively engaged in technical and academic events at the school level
